

**GOLD  
COAST  
YACHTS®**

DESIGN & ENGINEERING – GOLD COAST YACHTS is a successful multi-hull designer and builder located on St. Croix, in the US Virgin Islands. Gold Coast Yachts is looking to hire a dedicated individual to join our Design & Engineering team. The position is full time assisting in the design and engineering of composite sail & power passenger vessels and private yachts. Exact duties and position will be tailored to an individual's abilities and interests.

We seek applicants with the following attributes:

- Experience working as part of a design or engineering team
- Proficient with 2D CAD drafting and 3D modeling, preferably with Rhinoceros
- Understanding of engineering principles and small craft structures
- Ability to perform structural calculations, weight studies, and other related tasks
- Familiarity with ABS, DNV-GL, and other small passenger vessel design codes
- Sound understanding of composite boat building materials and methods
- Hands-on composite boat building experience, preferably with a yacht manufacturer
- Able to work closely with manufacturing staff to teach, learn, and problem solve
- Able to live and work in the United States

We offer a competitive wage and benefits package, as well as the opportunity to enjoy the unique culture of Gold Coast Yachts and the Caribbean. Interested individuals should send their resume and a cover letter to [karl@goldcoastyachts.com](mailto:karl@goldcoastyachts.com).

If you have a strong interest in this position but feel you may lack the necessary experience and knowledge, please apply anyways or consider applying for one of our other open positions.
