

**GOLD
COAST
YACHTS®**

DRAFTSMAN & CNC MACHINE OPERATOR

Gold Coast Yachts is a successful multi-hull design and building company located on St. Croix, US Virgin Islands. Gold Coast Yachts is looking to hire a dedicated individual to join our Design & Engineering Team and assist with drafting and CNC machine operations. This is a full time position requiring both computer and hands-on skills. Exact duties will be tailored to an individual's abilities and interests and vary with the evolving needs of the business. The position includes the creation of construction drawings for fiberglass, wood and metal vessel components. The position also involves the operation and maintenance of a router table and vinyl cutting machine.

We seek applicants with the following attributes:

- Ability to produce various types of construction plans and drawings
- Experience working as part of a design or engineering team
- High attention to detail and ability to visualize and problem solve
- Proficient with CAD/CAM software
- Experience and understanding of different CNC equipment
- Hands-on fabrication experience in any material
- Experience or ability to learn 3D modeling
- Self-directed and able to work alone

Experience with composites, boat building, or sailing is very beneficial. If you have a strong interest in this position but feel you may lack the necessary experience and knowledge, please apply anyways or consider applying for one of our other open positions. Gold Coast Yachts offers a competitive wage and benefits package. Interested individuals should send a cover letter and their resume to amy@goldcoastyachts.com.
